Photographer: Sheila Spence

Songwriter and performer Christine Fellows has released five critically acclaimed solo albums of original repertoire. An avid interdisciplinary collaborator, Fellows works with artists from all genres to create imaginative and moving performance works, scores, and spectacles.

**PROJECT:** Fellows will be creating musical repertoire, characters and a narrative storyline for a musical theatre-inspired interdisciplinary performance work entitled *Burning Daylight*. The story, told through song and movement, will detail the journey undertaken by two unlikely explorers travelling across the Canadian North, in the shadow of the Arctic Circle. *Burning Daylight* will premiere in Winnipeg and Fredericton in 2013.
