NOTES: All numbers reflect applications processed during the 2021-2022 fiscal year. For more information see: artscouncil.mb.ca/grants/grant-results/. Data about self-identification of MAC applicants, is based on profile information shared by individual applicants on a strictly voluntary basis. This information is not available to assessors who review applications. Because sharing this information with MAC is optional, we do not have a complete picture of the diversity represented by the applicants and we may be underestimating the true number of applicants in these categories. **1.** This number does not include an additional 54 applications that were submitted but not presented to a jury for assessment because they were withdrawn by the applicant or deemed ineligible. **2.** Based on postal code, following the classification used by Canada Post, with postal codes starting with R2 or R3 reserved for Winnipeg. **3.** This number does not include \$47,306 from rescinded grants. **4.** This includes all grants awarded to individual professional artists, Indigenous Knowledge Keepers, arts/cultural professionals, and students of the arts. **5.** Based on 475 awards made to individuals in 2021-2022 of which 171 went to BIPOC applicants (including 98 awards to First Nations, Métis, or Inuit applicants), 87 went to applicants who are D/deaf or living with a disability, and 43 went to Francophone applicants.

Statistical Overview

During the 2021-2022 fiscal year, the Manitoba Arts Council reviewed 1671 grant applications, up from 1139 in 2020-2021. Well over half of the applications (66 per cent) were successful. The total requested amount was \$29.9 million, and \$22.3 million was awarded.

This overview presents:

- A break down of grants made by applicant type, granting program, and region;
- A summary of granting for individual applicants in different priority groups;
- An overview of the peer assessors who reviewed applications during the 2021-2022 year.

The COVID-19 Pandemic continued to affect granting at MAC this year as MAC delivered two rounds of the government of Manitoba's extraordinary investment in the sector via the Arts and Cultural Sustainability Funds. MAC developed two programs to meet government's objectives with the funds: the Arts and Culture Sustainability fund for organizations, and the Adapt program for individuals and groups. This investment doubled the amount of money MAC granted in this year.

Table 1: Applications by applicant type

MAC receives applications from individuals, groups, and organizations, along with a small number of nominations submitted by people who are not eligible to apply for grants. Among individuals, the vast majority (more than 88 per cent) of the applications were submitted by professional artists. Among organizations, most applications are submitted by professional arts organizations and clients enrolled in the Support-Operate program. Compared to last year, more applications (288, up from 165 in 2020-2021) were submitted by community-driven organizations whose mandate is not primarily focused on creating and presenting arts. This is the result of the influx of organizations that were eligible for the Arts and Cultural Sustainability Fund.

For each program, the table shows the number of applications and awards, as well the percentage of applications that were successful ('Award rate'). The right-most two columns show the total amount requested and awarded. In each column, the number in parentheses shows the change from 2020-2021.

In this second year of the pandemic, and with periods of loosening public health restrictions, application numbers for programs which were most affected in 2020-2021 began to rebound. This was true of Artists in Schools, Residencies and Travel/PD. Additionally, as two former Arts Branch programs listed in table 2a below, Arts Development Project Support and Indigenous Cultural Initiatives were integrated into Artists and Communities and Indigenous 360 programs listed above in table 2, application numbers for these programs were higher. In this year, a 2020-2021 pandemic relief program for former Arts Branch clients called Organizational Resilience was eliminated. This accounts for the sharp decline in Project Support grants listed in table 2a below.

Table 2a: Applications by program (former Arts Branch programs only)

100 applications were submitted to programs previously administered by the Arts Branch. This includes applications for project grants as well as for operating support. A full breakdown is included in the table below.

For each program, the table shows the number of applications and awards, as well the percentage of applications that were successful ('Award rate'). The right-most two columns show the total amount requested and awarded. In each column, the number in parentheses shows the change from 2020-2021.

Table 3: Applications by region (all applicants)

Over 2021-2022, MAC saw a 45 percent increase in applications submitted from areas outside the city of Winnipeg (421 applications up from 231 in 2020-2021). About 26 per cent of the applications and 28 per cent of the awards went to applicants located outside of Winnipeg. The amounts awarded to applicants outside of Winnipeg constituted 15 per cent of the total MAC granting budget for 2021-2022. This was 11 per cent in 2020-2021. The applications noted below as from “outside Manitoba” are from Manitoba residents temporarily living outside of the province.

Region	Applications	Awards	Award rate	Requested amount	Awarded amount
Rural Manitoba	239 (▲85)	166 (▲81)	69% (▲14%)	\$1,824,434 (▲\$748K)	\$1,172,332 (▲\$591K)

For each region, the table shows the number of applications and awards, as well the percentage of applications that were successful ('Award rate'). The right-most two columns show the total amount requested and awarded. In each column, the number in parentheses shows the change from 2020-2021. Regions are defined following the classification used by Canada Post, with postal codes starting R0 classified as rural, postal codes starting R2 and R3 reserved for Winnipeg, and postal codes starting R1, R4, R5, R6, R7, R8 and R9 in use for urban centres outside the city of Winnipeg.

Table 4: Applications by priority group (individual applicants only)

Data collected through Manipogo, our online granting system allows MAC to track several key performance indicators, including measures of how MAC's granting breaks down for different MAC priority groups. Tables 4 and 5 present an overview of granting for individuals in different priority and age groups. To put this information into context, MAC received a total of 928 applications from individual applicants in 2021-22, and 51 per cent of these were successful.

Individual applicants who are ...	Applications	Awards	Award rate	Requested amount	Awarded amount
... Indigenous	159 (▲43)	98 (▲48)	62% (▲19%)	\$1,337,154 (▲\$274K)	\$726,976 (▲\$412K)

For each category, the table shows the number of applications and awards, as well the percentage of applications that were successful ('Award rate'). The right-most two columns show the total amount requested and awarded. In each column, the number in parentheses shows the change from 2020-2021.

Note: The number of applications for Indigenous applicants is based on programs open to Indigenous and non-Indigenous applicants; it does not include applications submitted in the Indigenous 360 stream.

Table 5: Applications by age group (individual applicants only)

For each age group, the table shows the number of applications and awards, as well the percentage of applications that were successful ('Award rate'). The right-most two columns show the total amount requested and awarded. In each column, the number in parentheses shows the change from 2020-2021.

The information in tables 4 and 5 is based on profile information shared by individual clients on a voluntary basis. This information is not available to assessors who review applications. Because sharing this information with MAC is optional, we do not have a complete picture of the diversity represented by the applicants and may be under reporting the true number of applicants in each category.

Note: aggregate numbers reflecting clients' self-identification may fluctuate from year to year, as clients update the information they share with MAC. The numbers presented in this table are based on the information available at the time when this report was created and may differ from the information that was available when applications were submitted.

Table 6: Assessors

Peer assessment is the cornerstone of MAC's jury process, and 123 external assessors participated in the assessment of applications in 2021-2022. MAC aims for critical diversity by assembling juries who can bring a broad range of perspectives to bear on the submitted applications.

Category	Number of assessors
Indigenous assessors	45 (▲8)
Assessors who are visible minorities	65 (▲15)
Female assessors	69 (▲6)
Male assessors	41 (▲4)
Non-binary assessors	13 (▲2)
Assessors who are Deaf or who live with a disability or mental illness	16 (▼3)
Francophone assessors	10 (0)
Assessors from rural areas in the province	7 (▲2)
Assessors from urban centres outside of Winnipeg	8 (▼2)
Assessors from Winnipeg	55 (▼32)
Assessor from outside Manitoba	43 (▲19)
Assessors born before 1960	12 (▲4)
Assessors born between 1960 and 1979	46 (▲5)
Assessors born in 1980 or afterwards	52 (▲2)

Note: The number in parentheses shows the change from 2020-2021.

As a result of COVID, almost all jury sessions took place over videoconferencing, allowing MAC to cast a wider net in terms of recruiting expertise from beyond Manitoba's borders.

Note: Except for geographic location, which is based on postal code, the information aggregated for this table is submitted to MAC voluntarily. Because sharing this information with MAC is optional, we do not have a complete picture of the diversity represented by the assessors and may be under reporting the true number of assessors in each category.
